Re: Receipt of 1994 Annual Reports; Red Lava, S/023/021; Grey Slate, S/027/022; Potted Rock, S/027/023; and Multicolor Green, S/027/021, Juab and Millard County, Utah

Dear Mr. Thomas:

Thank you for submitting the annual reports for the mentioned mining notices which was received in this office April 3, 1995. The filing of these reports satisfies the requirements of the Utah Mined Land Reclamation Act (ACT), and interpretive rule R647-3-116.

Regarding the Red Lava (S/023/021) and the Grey Slate (S/027/022) mines, you stated that the BLM is satisfied with the reseeding efforts and would be closing out the files. To date, we have no record from the BLM confirming this reclamation has been accomplished. When in the area, this Division will perform an inspection of the sites to determine compliance with the reclamation standards of the Act.

Regarding the Potted Rock site (S/027/023), we have received notice from the BLM that this site has been satisfactorily reclaimed and the BLM case file is closed. We will also perform an inspection of this site, and subsequently close our file assuming the reclamation meets the standards of the Act.

Regarding the Multicolor Green site (S/027/021), this file will be retired. We have received a new Small Mining Notice from Dale Rogers for this operation. Mr. Rogers has accordingly assumed responsibility for all present and continued mining and reclamation obligations for this mine site.

If you have any questions or concerns regarding this letter, please contact me or Tom Munson of my staff. Thank you for your cooperation in the filing of these reports. The reports will still need to be filed annually until you are formally released in writing from both the BLM and this office.

Sincerely,

A handwritten signature in cursive script that reads "D. Wayne Hedberg".
